

Wasabi Hot Cloud Storage meets Cloutomate

Wasabi clears up the chaos of traditional cloud storage. No tariff jungle, no cost traps, no complex storage levels, no complicated setup. Instead: a product that delivers what others promise. Wasabi is Hot Cloud Storage is universally applicable, immediately available, fully S3-compatible and offers clear structures and predictable costs. Ideal for anyone who wants to store data efficiently, manage it securely and retrieve it again without any detours.

What makes Wasabi special?

One storage for everything: no tiers, no tariff acrobatics. Wasabi relies on a single, high-performance storage solution that is ideal for productive data, backups and archiving. Simply store, done.

Calculable instead of cryptic: Wasabi does not charge for access, API requests or deletions. You only pay for the storage space – and retain full cost control.

Fast. Global. Ready to go: No minimum term, no onboarding madness. Wasabi is ready to use immediately and available worldwide – including in Frankfurt and Amsterdam.

S3-compatible. Can be integrated immediately: Wasabi speaks the language of your systems. Backup tools and workflows continue to function as usual - without any modifications.

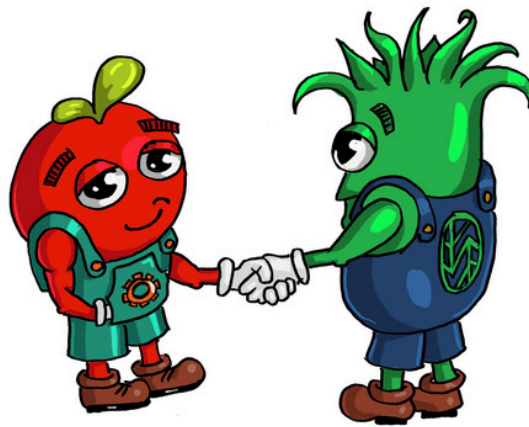

Growth made easy: Wasabi scales with your data – from terabytes to petabytes, without additional effort.

Security is not an add-on. It is standard

Wasabi was developed from the ground up for maximum data integrity and long-term availability. So that your data is not just stored, but actively secured - against mishaps, attacks and human error.

- **99.99999999 % data stability:** Extremely reliable storage even with huge amounts of data.
- **Regular integrity checks:** Automatically every 90 days without manual effort.
- **Tamper-proof through immutability:** Protection against ransomware, accidental deletion & data manipulation.
- **Certified security: Complies** with HIPAA, FINRA, CJIS and others - ideal for sensitive data.
- **Encryption before upload:** Cloutomate secures your data at the source, giving you maximum control.

Cloutomate + Wasabi: More storage space, one solution

Wasabi is like a good shelf. Cloutomate ensures that the books are correctly organised.

We turn Wasabi into a managed service that fits your environment: customised planning, reliable implementation and no standard off-the-shelf solutions. So that your data is not only stored securely, but ends up where it belongs.

Backup that fits

Standard solutions? Not with us. We develop backup concepts that are customised to your systems, workflows and compliance requirements.

Safety from the source

With us, protection doesn't just start in the cloud: we encrypt your data before it is uploaded so that you have full control right from the start.

Setup that works

We take care of setup, configuration and operation - as a complete managed service if required. You don't have to worry about a thing.

Who is Wasabi suitable for?

From backup to archiving: Wasabi is strong wherever storage is needed.

- **IT teams with data growth:** When local storage reaches its limits and classic cloud solutions are too costly.
- **Regulated industries:** Ideal for healthcare, finance & co. where data protection and compliance are mandatory.
- **Backup & archiving:** For secure offsite backups and long-term data storage without additional costs.
- **Media & video:** Large amounts of data? Fast access? Wasabi is made for both.
- **Multi-cloud & hybrid setups:** Easy to integrate alongside Azure, AWS or on-prem systems.

Wasabi provides the platform – we turn it into a solution that works for you.

Speicher allein reicht nicht. Wir machen Backup draus.
